

# TOUR DE OKANOGAN

## Tour De Okanogan Strenuous (105 miles) (6-8 hours)

The ultimate overachiever ride for the local area. This route take the rider south to Twisp and then up over Loup Loup Pass (a pretty steep and long climb), down to Malott and South to Brewster and then Pateros. The return journey is up Hwy 153 from Pateros to Methow, Carlton, Twisp and then Winthrop. Food stops are in the major towns, but take plenty of food water and some money. Repair opportunities are non-existent once you leave Winthrop- so take necessary repair gear. Watch the wind because in the afternoons it usually blows down valley and 40 odd miles into a headwind is no fun!

Finally, just add some of the rides together and create your own ride. Chewuch loop and then Sun Mtn is a fun ride with a bit or work involved. Likewise Mazama, Chewuch, Sun Mtn and Twisp will make for a fun few hours of riding!
